(a) Areas only within the business district may be designated as special shopping districts in order to promote the development of shopping areas having historic and/or unique character. These districts should encourage the continued use or rehabilitation of existing structures and should establish a convenient and pleasant atmosphere for pedestrian shopping. Generally, areas to be considered should have limited traffic access and the agreement of at least 33 percent of the affected merchants to participate in requesting this designation. For the purposes of this section, signs may be erected or extended into a public right-of-way but all such signs in each district must be consistent in their design.

(b) No sign shall be constructed that will exceed two feet in length or width and six inches in depth. Sec. 32-249. - Temporary event signs.

(a) Temporary event signs announcing a campaign drive, activity or event of a civic, philanthropic, educational or religious organization for noncommercial purposes are permitted subject to the following:

(1) Number, area, height and location. The permitted number, area, height, location and construction of temporary event signs shall be determined by the zoning administrator with consideration given to the public safety and the sign reasonably necessary and appropriate for the intended purpose.

(2) Any temporary event sign which is permitted by the zoning administrator to extend over or on to a public right-of-way shall be erected and maintained in such a manner as to not interfere or obstruct access, activity or vision along any such public right-of-way.

(b) Notwithstanding the provisions of subsection (a) above, signs, pennants, flags, banners, posters or similar exhibits displayed for a political group candidate for election to a public office or political cause are deemed to be a temporary event sign for the purpose of the respective event announced. For the purpose of an election, the event is considered to occur on the date of the election; provided, however, that primary elections are considered to be separate events from special or general elections.

(c) Temporary event signs shall not be displayed more than 30 days before a respective event and shall be removed within ten days after the completion or conclusion of the event to include a runoff election.

(d) Temporary event signs displayed for a political group, candidate for election to a public office, or a political cause shall not be restricted in size, and those announcing the same event shall not be placed within 100 feet of one another on the same property or lot.

Sec. 32-250. - Signs on public property.

The zoning administrator officer is authorized to permit informational/directional signs on public property under the following conditions outside of the permitting process contained within this Article:

(1) The signs direct the reader to the location of a public facility, to a facility operated by a nonprofit entity, to a facility relating to the public health, safety or welfare, to scenic or historical districts or general business or industrial districts or a subdivision. The zoning officer is authorized to develop written and publicly posted guidelines for these types of signs.

(2) The signs are erected by the town.

(3) The entire cost of the signs is borne by the entity requesting the sign.

(4) The signs are installed at locations where they would not constitute a traffic hazard.

(5) Signs for businesses, donors, benefactors, supporters, business partners may be allowed as considered appropriate by the Planning Department.

Sec. 32-251. – Reserved

Sec. 32-252. - Other signs forfeited.

Any sign installed or placed on public property, except in conformance with the requirements, shall be forfeited to the public and subject to confiscation. In addition to other remedies under this article, the town shall have the right to recover from the owner or person placing a sign the full costs of removal and disposal of such signs.

Sec. 32-253. - Administrative variances.

The zoning administrator is authorized to grant administrative variances upon written application by the landowner for the number, height, setback, square footage or placement of signs in cases where unusual circumstances or a particular hardship which would make a strict interpretation of the ordinance go beyond the intent of the town council. Examples of cases where a variance might be granted would be as follows:

(1) In areas of the town which have unusually large right-of-way areas such as the original "Detmold area", the setback requirement may be granted a variance as the sign would be a sufficient distance from the pavement without any setback.

(2) On lots where there is more than one business in separate and distinct buildings and each building could meet the subdivision requirements to be a separate lot, a variance may be granted to treat each building as a separate lot.

The zoning administrator, at his/her discretion, may refer any request for a variance to the Board of Zoning Appeals, and the applicant may appeal any decision of the zoning administrator to the board of zoning appeals.
